YoloAI in brief

YoloAI pays a fixed daily income on crypto plans and returns your deposit at the end of the term. The engine behind it publishes every trade, and every payout is a transaction you can check on a block explorer.

01 **Product**

Fixed plans, an open engine. The rate, term and range are written before you pay.

02 **Payouts**

On public blockchains, each with a transaction hash.

03 **Operator**

YOLO AI LTD, a private limited company registered in England and Wales. Company number 16545463.

04 **Support**

Requests in your cabinet, with the reply kept on your account.

From deposit to deposit back

You pick a plan, deposit a coin and receive income every day of the term. When the term ends, the deposit is returned.

01

You deposit

Pick a plan and a coin, then pay the invoice.

02

The engine trades

Positions open and close, and each trade is logged.

03

Daily credit

Income at the plan rate lands on your balance.

04

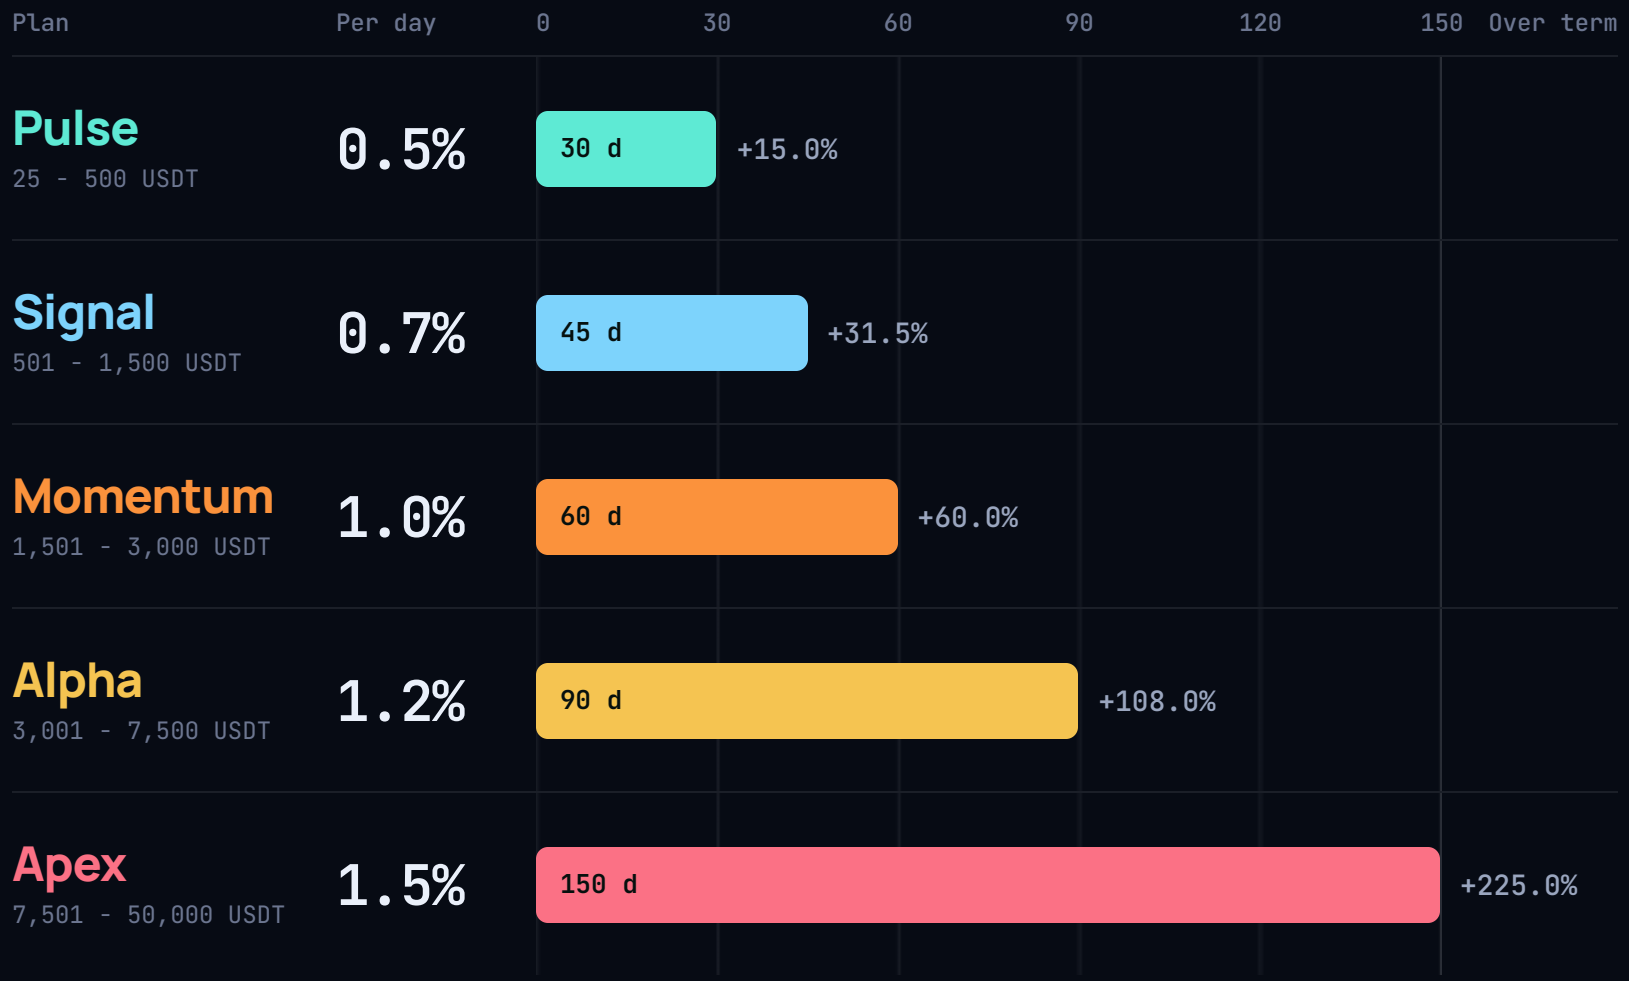

Deposit back

The principal returns to your balance in full.

day 0: deposit — daily credits — deposit back

A plan closes on its last day, not earlier. There is no early closing.

Five plans, all stated before you pay

Deposit in USDT or USDC. The rate, term and range are shown on every plan. The deposit is returned on the last day of the term.

Daily income, deposit returned at term end

Income is credited every day at the plan rate. Accrued daily income can be withdrawn at any time. On the last day the whole deposit returns to your balance.

deposit · daily credits · deposit back

An illustration based on plan rates, not a forecast. Plan rates are set by the platform, and crypto markets carry risk.

Deposit in USDT and USDC, withdraw to your wallet

Deposit

25 USDT

minimum deposit

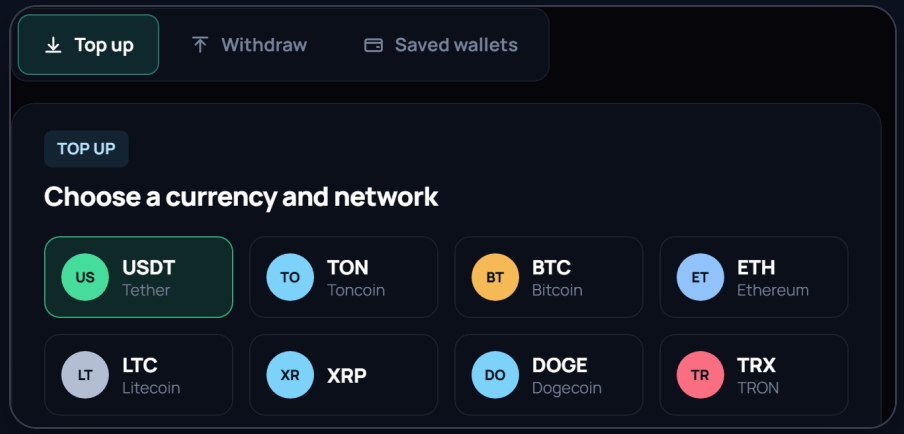

- Pick a plan and a coin, then pay the invoice to the address shown.
- The plan opens automatically once the payment is credited.

Withdrawal

100,000 USDT

maximum per withdrawal

- Request a withdrawal from your balance to your wallet.
- You need your withdrawal PIN and a fresh code from your email, plus 2FA if you turned it on.
- The transaction hash appears in your history.

Cabinet: choosing a coin and network
Demo account on a test stand

Coins and networks

USDT and USDC on BEP-20, TRC-20 and ERC-20, plus BTC, ETH, BNB, TRX, SOL, LTC and more.

Build a team down to level 8

Every time someone on your team opens a plan with a paid deposit, you receive a share of it, down to level 8.

15.85%

All levels together - from every paid deposit in your team

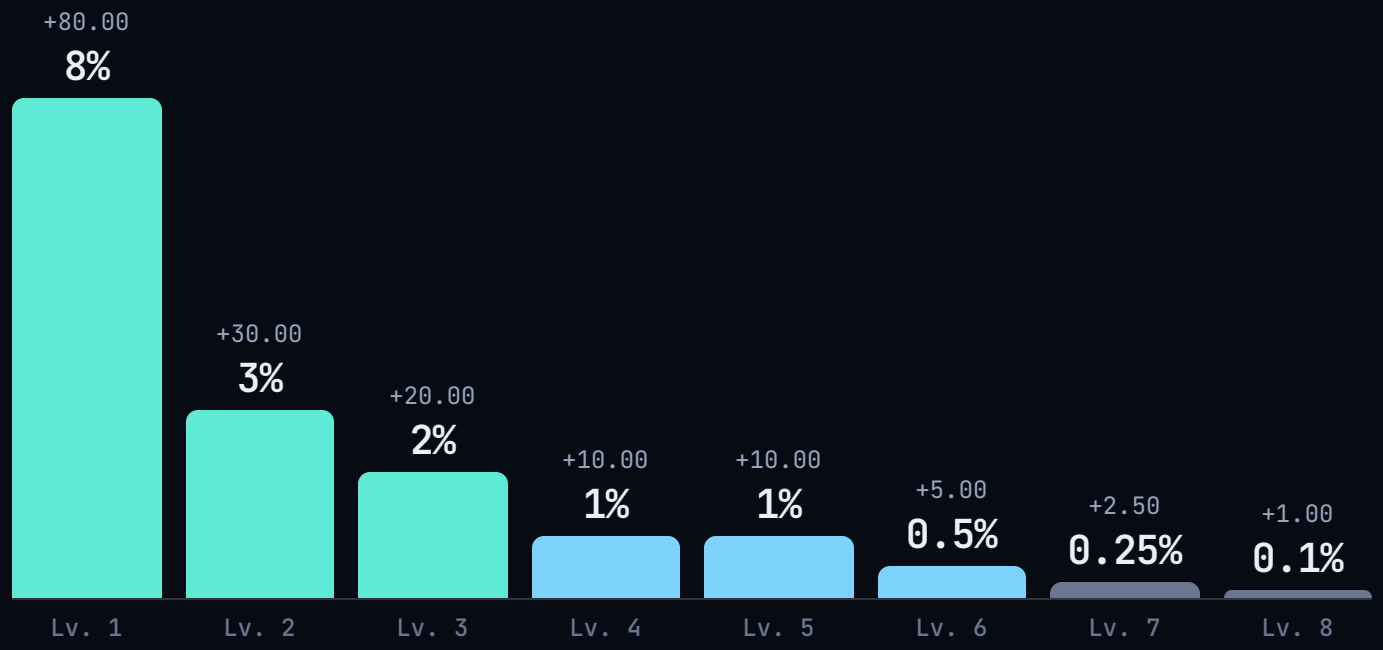

Paid deposits only

The reward is paid on new money paid by invoice.

A plan from balance earns nothing

Plans opened from balance or from income do not pay rewards.

Per 1,000 USDT deposited

Direct turnover grows your rank

Your rank grows with the active real stakes of your direct referrals. The YoloAI team confirms prizes, then the prize is credited to your balance.

Rank 1

Ambassador

from 3,000 USDT

+50

Prize, USDT

Rank 2

Team Leader

from 8,000 USDT

+250

Prize, USDT

Rank 3

Regional Director

from 20,000 USDT

+1,000

Prize, USDT

Rank 4

Global Director

from 50,000 USDT

+2,500

Prize, USDT

Level 1: reward rises to 10%

Rank 5

Executive Partner

from 100,000 USDT

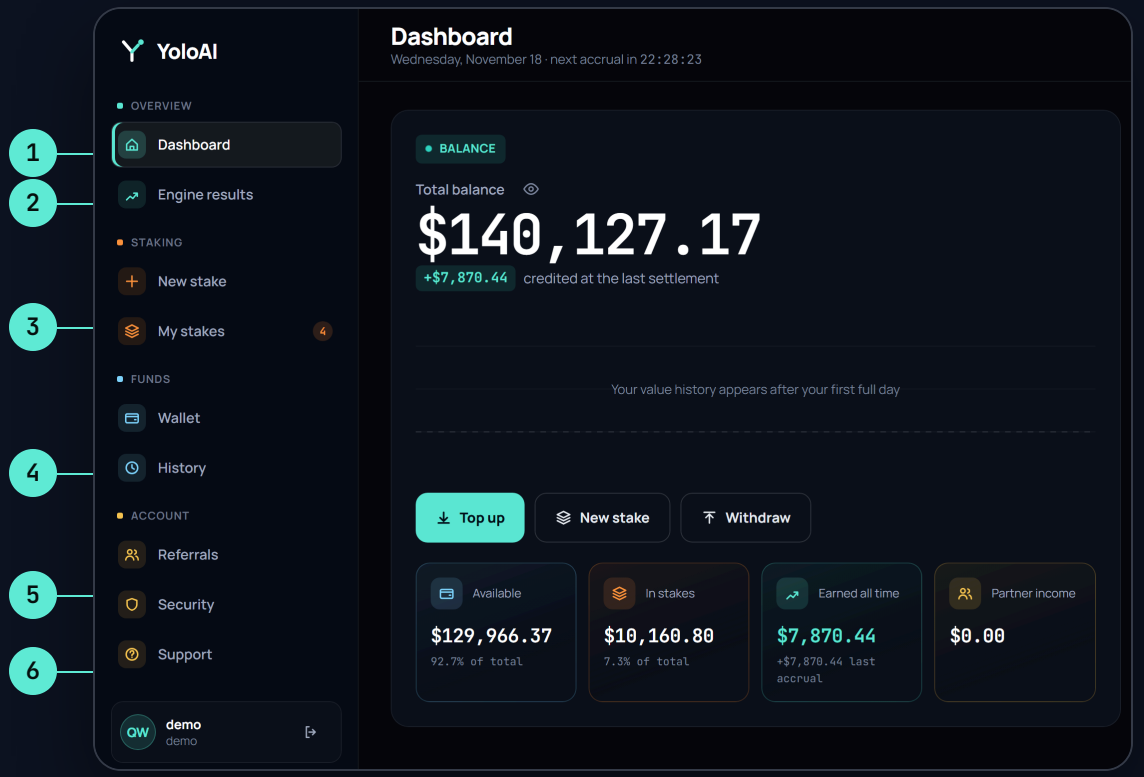

+10,000

Prize, USDT

Level 1: reward rises to 12%

Turnover counts the active stakes of your direct referrals that were opened with a paid deposit. Deposit growth and stake top-ups do not count.

Everything at hand in one cabinet

Demo account on a test stand

1 **Overview**
Balance, next credit, available funds and funds in stakes.

2 **Engine results**
The trading engine log, right from the cabinet.

3 **New stake and My stakes**
Open a plan and follow each one.

4 **Wallet and History**
Deposits, withdrawals, credits and rewards in one place.

5 **Referrals**
Partner link, QR code, ranks and team statistics.

6 **Security and Support**
PIN, 2FA, session list and support requests.

Every trading day, on the record

The result of each day, how many trades it took and how many of them won. Pick a day to open its trades, the best and the worst, and how it developed hour by hour.

Public ledger

Every closed trade is listed with its pair, direction, holding time and result.

Trade calendar

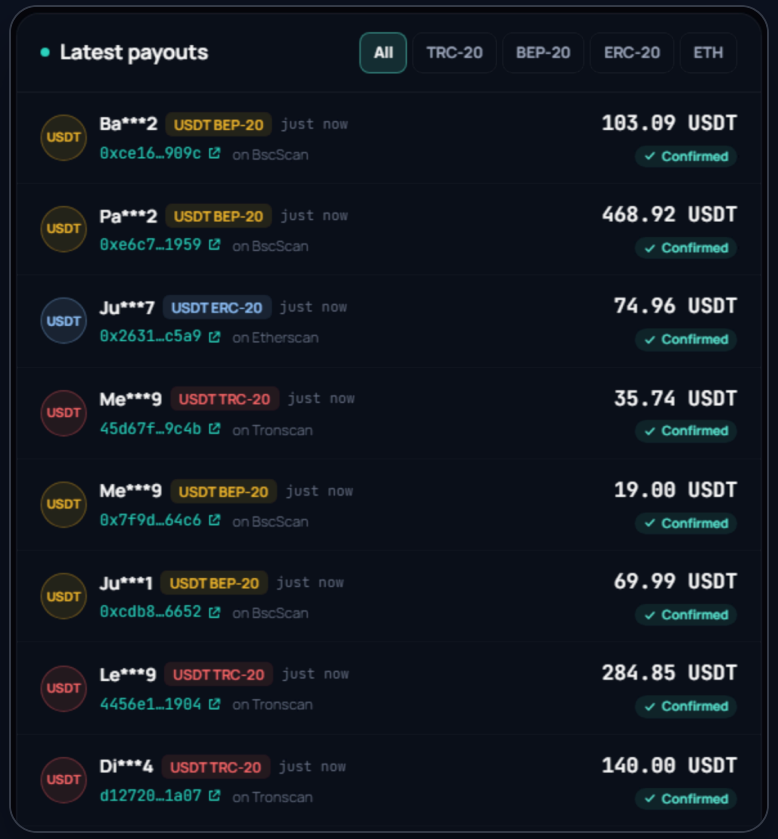

Every trading day in the calendar has its own page.

Publish first, explain after

Trades go on the page as they happen, not in a report written after the fact.

11 On-chain proof

Proof you can check yourself

Payouts are sent on public blockchains. Every row links to a block explorer, so you never have to take our word for it.

Paid out, 30 days
19,710 USDT

Payouts, 30 days
149

Avg. time to send
24 min

Check a payout in three steps

1 **Copy the transaction hash**
Every payout row shows its hash.

2 **Open a block explorer**
Tronscan for TRC-20, BscScan for BEP-20, Etherscan for ERC-20, mempool.space for BTC.

3 **Match the amount and time**
The explorer shows the transfer, the amount and the block time, independent of us.

Reserve wallet addresses are published by the YoloAI team: open any of them in a block explorer and check the balance yourself.

Your funds sit behind four checks

Email code at sign-in

A one-time code to your inbox.

Withdrawal PIN

A PIN approves every withdrawal.

Two-factor authentication

An authenticator app, if you choose.

Session control

Every device you are signed in on is visible, and any session can be ended.

Nobody at YoloAI will ask you for these

- Password
- Email code
- Withdrawal PIN
- 2FA code
- Seed phrase or private key
- Remote access to your device

If someone asks, it is not YoloAI. Before signing in, check that the address bar shows yoloai.net.

A real company you can look up in two minutes

YoloAI is operated by YOLO AI LTD, a private limited company registered at Companies House, the official company registry of the United Kingdom. Search the company number there and you will see the same record.

Company	YOLO AI LTD
Company number	16545463
Incorporated	27 June 2025
Jurisdiction	England and Wales
Company type	Private limited company
Registered office	London, England, N1 7GU

Risk warning

Placing crypto in a plan involves risk, including the loss of the amount deposited. Plan rates are set by the platform. Engine results describe past trading and do not promise future returns. Nothing on this site is investment advice. Check that the service is permitted where you live before you deposit.

Terms of service, the privacy policy and the risk disclosure are linked in the footer of every page.

Three steps to a first plan

01

Create an account

Sign up at yoloai.net.

02

Make a deposit

Pick a plan and a coin, pay the invoice. The plan opens automatically.

03

Watch the credits

Income every day, the deposit returns on the last day of the term.
